

Safe Shelf

Add security to your Mantova Post Wire Shelving with a Safe Shelf. Panels are fastened to existing locations, no drilling is required, to secure half your bay of shelving. The Safe Shelf is suitable for both a new assembly and upgrading an existing shelving unit.

SHELF FRAMES

Welded 32mm x 2.5mm roll formed section with 4mm wires on 8mm cross supports spaced on 25mm centres

POSTS

25mm x 25mm x 1.2mm tube fitted with a Mantova bullet foot allowing 32mm of adjustment.
